

Nyasha K. Madoro

Cloud Computing | IoT | Python

Zimbabwean | madoronyasha0@gmail.com | +263 786 224 133 | LinkedIn: [Nyasha Madoro](#) | GitHub: [NyashaKelvin](#)

EDUCATION

University Of Zimbabwe

Harare, Zimbabwe

B.S. Honours in Cloud Computing and Internet Of Things

Expected Graduation, May 2028

- **Concentrations:** Cloud Service Models & IAC Infrastructure As Code
- **Related Coursework:** Programming, Machine Learning, Artificial Intelligence, Object Oriented Programming, Data Structures & Algorithms, Web and Mobile Computing, Software engineering, Data Communications and Computer Networks.

CERTIFICATES

- 2024 ICDL, International Computer Driving Licence, Certificate Core digital literacy and computer proficiency certification.
- 2025 CS50: Introduction to AI with Python

EXPERIENCE

Mother Patrick

Waterfalls, Harare

Community Service term

January 2025 – Feb 2025

- IT and Lab Department support
- Administration support

ACADEMIC PROJECTS

FindiT (Web Based Application) [Findit Project](#)

Developer

- Developed a web-based application, community's ultimate tool for finding what's been lost and returning what's been found. Secure, fast, and local.
- Backend API integration and relational database architecture.
- Created services using Python, React, Nodejs, TailwindCss, Bootstrap

RFID Medical Dispenser – Smart IoT medication Dispenser

Team Member

- Arduino Uno integration with RFID sensor for smart auto medication dispensing
- ML support on Anomaly Detection
- Serial connection integration on Hardware Components and interactive Web Dashboard

SKILLS

Programming: Python, JavaScript, SQL, Node.js, HTML/CSS, Seaborn, Pandas & NumPy, Scikit-learn

Frameworks: React, Django, FastApi

Databases: Postgres, MySQL, Sqlite3

Tools: VsCode, Antigravity, IntelliJ, PyCharm, Jupyter Notebook, Git/GitHub

Cloud Platforms and services

Infrastructure As Code IAC: Terraform

SaaS Software as a Service Integration: API integration

Paas Platform As A Service: Vercel, Railway

CI/CD: GitHub Actions
